Context Sensitive Solutions: A Rose by Any Other Name

- Environmental stewardship
- Customer focus
- Customer sensitive solutions
- Livability
- Sustainability
- Complete streets
- Flexible design
- Practical design
- Integrated planning
- Collaborative decision-making

CSS Principles

- Strive towards a shared stakeholder vision to provide a basis for decisions
- Demonstrate a comprehensive understanding of context
- Foster continuing communication and collaboration to achieve consensus
- Exercise flexibility and creativity to shape effective transportation solutions while preserving and enhancing community and natural environments.

**MnDOT CSS
2009 to 2012**
